

Tom Thomas

Antarctica

Thomas A. Thomas is the Managing Partner of the Thomas & Mack Co., an investment management and commercial real estate development company. Mr. Thomas has managed the company since its formation in 1992.

After completing his legal studies in 1986, Thomas joined the Valley Bank of Nevada as Vice President and Legal Counsel. Thomas also served as the Regional Vice President for retail banking operations and Senior Vice President over Private Banking and Corporate Trust Services. With the merger of Valley Bank of Nevada into Bank of America in 1992, Thomas left his banking career to formalize the real estate and wealth management operations

of the Thomas & Mack Company. The Company owns and operates over 4 million sq. ft. of office and light industrial properties in Las Vegas as well as real estate developments in California, Arizona, and Utah.

Thomas received a Bachelor of Arts Degree in Finance from the University of Utah in 1982 and a Law Degree from the University of Utah College of Law in 1986. He is also a graduate of the National Graduate Trust School at Northwestern University.

For over two decades Thomas has been intimately involved with numerous local charitable organizations. He has chaired the UNLV Presidents Associates, the Opportunity Village Foundation Board, the Board of Governors of the Utah Shakespeare Festival, and served as President of the Las Vegas Rotary Club. Thomas was also instrumental in establishing the Thomas & Mack Legal Clinic and the Thomas and Mack Moot Court Facility, both at the UNLV Boyd School of Law. Thomas served as the Chairman of the Capital Campaign for the Engelstad Campus of Opportunity Village and remains actively engaged in that organization.

MESSAGE FROM THE PRESIDENT

Dear Rotarians,

Today we have yet another presentation by a fellow Rotarian who does many amazing things for our club and for the community. His topic today, however, is about his equally impressive adventure in Antarctica. So, for a little trivia I thought you might enjoy the following briefing:

Antarctica is Earth's southernmost continent. It is almost entirely south of the Antarctic Circle, and is surrounded by the Southern Ocean. At 5,400,000 square miles, it is the fifth-largest continent – larger than both Australia and Europe. About 98% of Antarctica is covered by ice that averages 6,200 ft in thickness. That ice contains about 70% of the earth's known fresh water.

Given that statistic, it is somewhat counterintuitive that Antarctica is actually a desert, with annual precipitation of only 8 inches. The temperature in Antarctica has reached -128.6 °F. As of 2016, there are about 135 permanent residents, but anywhere from 1,000 to 5,000 people reside throughout the year at the research stations scattered across the continent. Organisms native to Antarctica include many types of algae, bacteria, fungi, plants and certain animals, such as mites, nematodes, penguins, seals and ROTARIANS. Yes that's right – there are actually two Rotary Clubs in Antarctica!

Just one more example of the true global nature of Rotary.
